PROFESSIONAL SUMMARY

Computer Science student interested in cloud infrastructure, DevOps, and automation. Hands-on experience with AWS, Docker, Linux, and CI/CD pipelines.

EDUCATION

B.Tech Computer Science
ABC Institute
2023 - 2027
CGPA: 8.6/10

TECHNICAL SKILLS

Cloud: AWS EC2, S3, IAM, Lambda, DynamoDB
DevOps: Docker, GitHub Actions, CI/CD
Operating Systems: Linux
Languages: Python, Bash, JavaScript
Tools: Git, GitHub, Terraform

PROJECTS

AWS Deployment Pipeline
- Created a CI/CD pipeline using GitHub Actions.
- Automatically deployed Node.js applications to AWS EC2.
- Added automated testing during deployment.

Cloud File Storage
- Built a file storage application using Node.js and AWS S3.
- Implemented file upload and deletion functionality.
- Used IAM policies to control access.

EXPERIENCE

Cloud Intern
CloudTech
May 2026 - July 2026

- Assisted with AWS infrastructure management.
- Monitored EC2 instances.
- Created S3 buckets and IAM policies.
- Worked with Docker containers.

CERTIFICATIONS

AWS Certified Cloud Practitioner

ACHIEVEMENTS

- Completed 3 AWS projects.
- Participated in Cloud Hackathon 2026.
